

**CCRN Exam Review (Adult)**  
**November 12-13, 2012**  
**Patterson Education Building Auditorium**  
**Robert Packer Hospital - One Guthrie Square**  
**Sayre, PA 18840**

**Course Description:**

This two-day course, presented by MED-ED, provides the critical care nurse with a review of AACN's core curriculum. The agenda combines central knowledge-based lectures for nurses working in the ICU with an essential review of nursing care and interventions according to the AACN exam blueprint for the critical care provider. This review is not an introduction to the environment of the ICU, but a comprehensive update for the professional already in practice at the bedside and preparing for the certification examination.

*For attendees preparing to take the CCRN Exam:*

*This review course content follows AACN's updated 2010 CCRN exam blueprint. Professional Caring and Ethical Practice (20% of exam) issues are addressed when appropriate throughout the seminar.*

**Program Objectives:**

Upon completion of this program the participant will be able to:

- Discuss and practice test-taking skills
- Review critical anatomy, physiology and pathophysiology of each system
- Discuss significant assessment and diagnostic findings relevant to the critical care environment
- Discuss clinical presentation as well as specific patient management of commonly seen critical care conditions

**Program Cost:**

The cost of this course is \$295/per person. However, with the use of the Healthcare Worker Training grant funding, the total cost per employee is reduced to \$89/person.
