

**Northern Tier Regional Planning and Development Commission  
Towanda, Pennsylvania**

Seeks a full-time **Regional Planner GIS**.

**Responsibilities:** Coordination, research and implementation of a wide variety of regional planning initiatives. Research and write project proposals. Coordinate, and in some instances, offer general, as well as specialized, technical support and training to regional GIS users. Assist in GIS analysis and map design for regional projects. Assist with the development and implementation of several regional strategic planning opportunities underway. Act as the regional liaison to numerous federal, state, regional and county GIS user groups and associations. Develop and implement mutually acceptable regional GIS data standards and practices for state and federal compliance.

**Requirements:** Graduation from a four-year college or university with a degree in geography, planning or a closely related field with one to two years of relevant experience in GIS and GPS with ESRI ArcGIS, or a combination of education and relevant experience in GIS and GPS. Knowledge of Windows XP Professional platform preferred. Must be able to communicate orally and in writing.

**Salary:** \$34,267 with an excellent work environment and generous benefits.

**Closing date:** Resumes accepted until 4:00 P.M Friday August 29, 2008. (EOE)
