**PA Jobs** – *(source: Current Employment Statistics, seasonally adjusted)*

- The total jobs count for April 2013 in PA was about 5.8 million (5,753,000). This was an increase of 6,700 from March 2013 and an increase of 21,800 from April 2012.
- The private sector jobs count for April 2013 was about 5.0 million (5,037,400), up 8,300 from March 2013 and up 30,200 from April 2012.
- Administrative and Waste Services had the largest job gain (4,400) in April 2013, and Construction had the largest loss (-3,200).

**Unemployment Compensation (UC) Benefits in PA** – *(source: PA UC System)*

- In Pennsylvania, currently approximately 223,000 individuals are receiving UC benefits.
- A maximum of 63 weeks of UC benefits are currently available to an unemployed individual. This includes Regular UC (26 weeks) and Emergency UC (37 weeks).
- As of September 2nd, 2012, the maximum number of weeks of Emergency UC decreased from 47 to 37.
- 125,000 individuals exhausted all unemployment compensation benefits between May 2012 and April 2013, and another 17,000 individuals are projected to exhaust all benefits between May 2013 and July 2013.

**Marcellus Shale in Pennsylvania** *(source: Quarterly Census of Employment and Wages)*

- Pennsylvania’s Marcellus Shale related industries are defined by PA Department of Labor & Industry using North American Industry Classification System (NAICS). This definition contains 6 “core” and 30 “ancillary” industries that employ individuals in direct and indirect jobs.
- Employment in the core industries increased 163.6% statewide from 2009Q3 to 2012Q3. Within the six Workforce Investment Areas with significant drilling activity, employment in the core industries increased 178.7%.
- The average wage in the core industries ($82,643) was about $34,700 higher than the statewide average wage ($47,922) for 2011Q4 through 2012Q3. The average wage in the ancillary industries ($64,559) was about $16,600 higher than the statewide average.
Workers’ Compensation

- First reports of injury in March 2013 were 13% higher than their year-ago levels. (*A first report of injury is for a work-related injury or illness that results in the loss of a full turn or shift of work.*)
- For the month of March 2013, there were 1.53 work-related injuries or illnesses per 1,000 workers.
